

Confocal Imaging System Webinar

March 4th 2026

Weblink: To be given upon signing up

High-speed image acquisition

Excellent optical sectioning capability

Real-time live-cell imaging

Rich Feature Extraction & Advanced Image Analysis

Seminar Highlights :

- Introduction to drug discovery applications using Yokogawa's high-content confocal imaging.
- High-resolution and high-speed imaging for fixed and live cells, including 3D spheroids and organoids.
- Live demonstration and sample testing with Dr. Chloe Simpson, PhD in cancer research and postdoctoral experience in oncology

Demo Trial On Site

March 10-13th (AM/PM)

Dr. Chloe Simpson

Sarawak Research & Development Council
Sarawak Tropical Peat Research Institute,
Lot 6035, Kuching-Samarahan Expressway,
94300 Kota Samarahan, Sarawak.
